DATAMARS Livestock™

Tissue Sample Tags

Integrated Tissue Sampling and Animal ID

We introduced the industry-leading ***one***-piece, Z1 No-Snag-Tag, and now we're bringing you the convenience of tissue sampling and animal ID application in ***one*** simple step with the Tissue Sample Tags. The cross-functional Tissue Tagger seamlessly installs RFID and Tissue Sample Tags quickly and cleanly for a simple ***one***-step process. Dry desiccant vial samples offer high-quality preservation and can be stored at room temperature for up to six months. This process minimizes the risk of sample destruction, ensuring integrity for genetic and disease testing.

- Visual Tag guaranteed for the life of the animal
- Quick, clean collection for genetics and disease testing
- Accurate offspring pairing for improved reproduction results
- Increased herd credibility
- Prevents recording errors within the herd
- Matching barcodes with Tissue Sample, RFID and visual tags
- Store sample up to 6 months at room temperature
- Custom laser printing available
- Certified PAS44
